Water Servicing Cart W201L

The W201L offers leading performance and design which comply with International standards Such as IATA AHM 905, AHM910; AHM913; AHM915; AHM916; AHM920, SAE-ARP836A etc.

Turning Radius 6450mm
Ground Clearance 300mm

Standard Features

- . Water System powered by Yanmar Engine
- . Brake System : Applied on Tow Bar in up & down position
- Hydraulic Dual Circuit
- . Suspension : Leaf spring
- . Steering : Re-circulating ball nut type with Integral power assisted
- . Hydraulic System : PTO driven Hydraulic Pump, Gear type; GM5-6, Gear Type Hydraulic Motor
- . Water Pump : Lowara, Italy Stainless Steel
- . Electrical System : Battery : 12V/79AH x 2; Alternator/Starter: 24V

Water Tank

. Capacity 200 Gal

Wheelbase

38150mm

Axle Load

- . Front 3100kg
- . Rear 6600kg
- . Gross Vehicle Weight 9400kg

Overall Dimensions

- . Length 7405mm
- . Width 2200mm
- . Height (retracted) 2485mm
- . Height (fully extended) 4090mm

Optional Features

- . Air Conditioner
