The Bliss-Fox F1-300 Aircraft Tractor was designed in Australia for both pushback and extended towing of aircraft up to 360 Tonnes.

Drop-in ballast in the F1-300 easily transforms the tractor from a standard 27 Tonnes for A330 & B787 up to 40 Tonnes for A350 & B777 with no obstruction to the operators' line-of-sight.

With power to spare the F1-300 features a 200kW (268 hp) Diesel Engine with 1100 Nm (811 Ft/lbs) of Torque. This modern styled, unique tractor is built on our exclusive integral perimeter frame chassis. This chassis is guaranteed for life. The F1-300 is easy-to-maintain with simple lift off covers surrounding the oversized engine bay and easy-to-operate with a fully enclosed cabin and optional hot/cold air-conditioning.
