Catering truck X-Cat L

General Specification

The X-Cat L Hi-Loader concept is a very versatile system for transferring catering loads and personal into and out of the main decks of all common aircraft types, from the low Boeing 737 up to the new Airbus A 380. With a payload of up to 5,000kg, the X-Cat L hi-loader loader truck is capable of handling even the heaviest long haul double service loads. The X-Cat L - system can be installed on all common truck-chassis according to your preferences, such as ISUZU, IVECO, HINO, VOLVO, MAN, MERCEDES, etc
