HF DQY150 Electric Towing Tractor

HFDQY150 is designed for internal usage. She has a competitive small draw bar pull of 15T which has the ability to pull/push 15,000kg. The AC driving motor is integrated with the rear axle and differential gears while the steering axle is hydraulic driven and has a small turning radius. It is suitable for airport, logistic industry and warehouse usage. The power pack is of lead-acid which has maximum charging cycles of 1200 times and the charging time is between 3 to 5 hours. She is using electric controller. She can last for 70km continuously running.

Product Specifications

Draw Bar Pull (KN)	15KN
Pulling Capacity (KG)	15000
Overall Dimension (mm)	2300L
	1160W (without cab)
	1450H (without cab)
Maximum speed (km/h)	25
Turning Radius (mm)	2400(external)
Power pack	72V 350AH to 450AH lead-acid
Charging time (hr)	3-5
Continue running (km)	70
